

## CELEBRATE NATIONAL MANUFACTURING WEEK IN QUEENSLAND WITH AN INTERNATIONAL FLAVOUR

### Topics to be covered by Guest Speaker Soren Pedersen:

- Trends in Lean Strategies and Implementations in European companies;
- Lean office examples used by the Danish Technological Institute lean team (practicing what they preach) to manage their consulting team engagements;
- Examples of lean from Denmark - Dairy, Electronics and Energy sectors.

**Soren Pedersen** has extensive expertise in Lean and strategy work, with great emphasis on involvement of people and measurable results. Before immigrating to Australia, Soren worked at the Danish Technological Institute for 11 years (between 1997 and 2008), where he was a 'Productivity Chief', leading a group of consultants to provide lean implementation and strategy consulting over Danish and European Industries. He also has training experience in facilitating/coaching consulting projects for companies, as well as experience in the Lean Navigator Program.
