

# Coach Profile

Rajesh Verma  
- Wide Bay, Queensland

**Rajesh describes himself as a turnaround specialist & a change agent.** Group's Qld team.

Rajesh, or Rezi as he is commonly known, is The Improve Group's manufacturing excellence coach servicing the Wide Bay area.

His qualifications include BE – Mechanical Engineering, Masters in Science – Mechanical Engineering and an Executive Business Management degree.

He has many years experience in the engineering & technical field with a focus on continual improvement using 5S, Kaizen and other lean principles along with Quality Management Systems.

Rezi is also a certified auditor for Environmental, Quality and Workplace Health and Safety Systems.

Working for a major engineering company in Texas, USA he was responsible for the coordination of their lean programs, kaizen event planning and facilitation, and Quality Management System.

His experience with The Improve Group programs have provided a wealth of operational improvements with well known companies in the Wide Bay region including Hyne Timber, Bundaberg Brewed Drinks, Megatoy, Global Manufacturing, Steeline, Superior Pak and many others.

Prior to this he has held manufacturing management roles in engineering companies.

Rezi specializes in factory layout and production line design concepts, Just in Time systems and 5S implementations.

Rajesh has trained more than 1200 people at all levels in Lean Manufacturing and brings a great depth of experience to The Improve
