

Quick Changeovers programs

Quick Changeovers is a methodology to improve your workplace and is **suitable for all types of industries**. The principles can be applied in any manufacturing or processing environment.

Often referred to as SMED the methodology originated from Japan and has been adapted by the worlds leading organisations. It is considered a key element to increasing competitiveness in a global economy.

The Quick Changeovers system comprise of four simple steps:

- Improving production scheduling
- Reducing activities required to changeover equipment and processes
- Converting changeover activities to activities that can be carried out during normal running time
- Streamlining remaining activities

The Improve Group provides a range of Quick Changeovers programs designed to suit your company needs. You can choose from the following options:

1. **Certified Quick Changeovers Training and Implementation Program** - led by one of our improvement coaches these two day workshops are action based. Not only do we show you how to apply Quick Changeovers in the workplace, we actually get you started with a Quick Changeover implementation.
 - Fully accredited training to Australian and New Zealand unit standards (Certificate in Competitive Manufacturing)
 - 2 days of action applying Quick Changeovers in your workplace, we make such a difference you can't go back to the old way. An optional 12 week support program is also available.
2. **Quick Changeovers Rapid Improvement Event** – conducted over a 2-5 day period (depending on equipment complexity) we implement Quick Changeovers with your team. This program is all action, and will make a significant difference to your productivity levels

Features and benefits of our programs:

- The Improve Group provides experienced performance coaches that can make a real difference to your business. Our experience covers many different industries including food and beverage, packaging, printing, manufacture and assembly, metal processing, timber, pulp and paper, chemicals, pharmaceutical, plastics and many more.
- We provide you with all training material, templates and support to ensure that you achieve your identified goals and are capable of self-sustaining future improvement activities.
- Our programs are available throughout Australia and New Zealand, and in many cases qualify for training subsidies.

Don't wait to find out that your competition has left you behind, become an industry leader today with your very own Quick Changeovers Initiative.

Our clients include some of the world's best manufacturers – Toyota, Volvo trucks, Boeing and many more. We have access to the world's best manufacturing training resources, and use them regularly during our programs.
