

# Lean Job Shop Training for Operators

## MSA31108 Certificate III in Competitive Manufacturing

(Job Shops)

Ideal for machine operators and support staff this Government funded program provides your team with the skills to successfully implement Lean Manufacturing concepts in a job shop environment.

You will undertake a series of projects where you will be responsible for the implementation of workplace improvements in your own job shop environment.

These projects will help improve the level of quality, cost, delivery, safety and productivity by challenging existing processes and cultures to develop a “High Performance Workplace”.

Suggested Units of Competency (In-house programs can be customised to suit your needs)

- MSACMT231A Interpret product costs (lean wastes)
- MSACMC210A Manage the impact of change
- MSACMT483A Support proactive maintenance
- MASCMT240A Apply 5S
- MSACMT220A Apply quick changeover procedures
- MSAPMSUP390A Use structured problem solving tools
- MSACMS200A Apply Competitive Manufacturing Practices
- MSACMS401A Ensure process improvements are sustained

Training incentives of \$4,000 may be available to employers for each eligible staff member.
