

Lean Manufacturing Training for your Operators

MSA31108 Certificate III in Competitive Manufacturing

(Lean Manufacturing)

Ideal for fabrication and assembly staff this Government funded program provides your team with the skills to successfully implement Lean Manufacturing concepts in the workplace.

You will undertake a series of workplace projects where you will be responsible for the implementation of a 5S workplace efficiency program, and process improvement strategies using your existing plant and processes.

These projects will help improve your operations ensuring maximum reliability, throughput and product quality. Suggested Units of Competency (In-house programs can be customised to suit your needs)

- MSACMT231A Interpret Product Costs (Introduction to Lean Wastes)
- MSACMC210A Manage the impact of change
- MSACMT240A Apply 5S
- MSACMT221A Apply Just in Time (JIT) Procedures
- MSAPMSUP390A use Structured Problem Solving Tools
- MSACMT451A Mistake proof a production process
- MSACMS200A Apply Competitive Manufacturing Practices
- MSACMS401A Ensure process improvements are sustained

Training incentives of \$4,000 may be available to employers for each eligible staff member.
