

Train your team in modern Process Manufacturing techniques

MSA41108 Certificate IV in Competitive Manufacturing (Process Manufacturing)

Participants completing the Certificate IV in Competitive Manufacturing — Process Manufacturing Stream will be able to lead and facilitate Continuous Improvement concepts in the workplace.

You will undertake a series of workplace projects where you will be responsible for the implementation of workplace improvements in your work processes.

These projects will help improve the level of quality, cost, delivery, safety and productivity by challenging existing processes and cultures to develop a “High Performance Workplace”.

Suggested Units of Competency (In-house programs can be customised to suit your needs)

- MSACMT231A Interpret product costs (lean wastes)
- MSACMT280A Undertake root cause analysis
- MSACMT452A Apply statistics to processes in manufacturing
- MSACMT450A Undertake process capability improvements
- MSACMS401A Ensure process Improvements are sustained
- MSACMC410A Lead change in a manufacturing environment
- MSACMC413A Lead team culture improvement
- MSACMT620A Develop quick changeover procedures
- MSAENV472A Implement and monitor environmentally sustainable work practices
- MSACMT441A Facilitate continuous improvement in manufacturing

Training incentives of \$4,000 may be available to employers for each eligible staff member.
